

# rejection

## Q Strange

Why'd you take that away from me?  
Just one taste and I needed a little more of your sweet honey  
I want you to feel my pain, I want you, don't walk away  
I need you, the time is right, I need to hold you tight  
Rejection, I can't believe you're gone  
Rejection, why'd you have to walk away?  
Rejection, I can't believe you're gone  
Rejection, now, it's time to turn the page  
Rejection, what the fuck did I do?  
Rejection, why'd you have to walk away?  
Rejection, you broke me in two  
Rejection, rejection  
What the fuck did I do?  
What did I do to deserve the blame?  
Remember this, and don't forget my name that's  
Bitch, you know my name, handle this shit before I rope ya  
I'm gonna slit your throat before I smoke ya  
Bet it all but you don't own me  
You tried to punk me but you don't know me  
You tried to blow me off without no question  
You better pray for divine intervention  
Don't walk away, just run away  
You really didn't think I'd let you walk away from me  
Just one more time, I need to feel your lips around this piece  
If you could come my way, what could I do to make you stay?  
Then you could penetrate my life then you'd rip me up inside  
Rejection, I can't believe you're gone  
Rejection, why'd you have to walk away?  
Rejection, I can't believe you're gone  
Rejection, now, it's time to turn the page  
Rejection, what the fuck did I do?  
Rejection, why'd you have to walk away?  
Rejection, you broke me in two  
Rejection, rejection  
Pushing and crushing me down on my knees  
Taking and breaking and making me scream  
I can't contain this I'll make you all bleed  
You've opened me up now, you'll feel my disease  
In my suffering

(Stop)  
Suffering  
(Dying too)  
In my suffering  
(Stop)  
Suffering  
(Dying too)  
In my suffering  
(Stop)  
Suffering  
(Dying too)  
In my suffering  
(Stop)  
Suffering, dying too  
Even in my suffering  
I'll make you believe  
You can't believe I'll make you disappear  
Occurred to me and then it became clear  
Rejected me, oh no, I don't think so  
I'll take you out quick, don't even blink so  
You cut me up and hung me out to dry  
Got your itch like a bitch, you made me cry but  
Retribution, confusion, illusion  
hairline fracture, multiple contusion  
Don't walk away, just run away
