

Bring Home the Bacon

Drivin' N' Cryin'

Presidential figure
Corporation man
Senators and congressmen
Tried the whole world
And tried to meet the future
Living in an office so high
But when he pulls up the driveway
And unlocks the door
She's standing at attention
She's hard to ignore
And she says Bring home the bacon
And take out the trash
It's just another matter of fact I asked her how long It takes to live like a king
She laughed and said a cold day in Hell
So I moved out
And got a place of my own
I'm doing fairly well
But then I got married
And then I got rich
And then I was the president
It didn't matter which Bring home the bacon
And take out the trash
It's just another matter of fact
