

When Love Comes Around

[Alan Jackson](#)

Love for me hasn't been easy, I've let true love fall to ground
Through the years and the tears
I've learned what love's about
This time I'll be ready when love comes around When love comes around I'll be ready
Love will find me a brand new man
And I'll be standing here with my heart in my hand
This time I'll be ready when love comes around Too many times I've lost a good
Love and I can see now I let it down
But if love comes back to me it won't see same old me
This time I'll be ready when love comes around When love comes around I'll be ready
Love will find me a brand new man
And I'll be standing here with my heart in my hand
This time I'll be ready when love comes around
