In the Heat of the Morning

The Last Shadow Puppets

The blazing sunset

In your eyes

Will tantalize

Every man

Who looks your way

I watched them sink

Before your gaze

Seniorita sway

Dance with me

Before their frozen eyes

I'm so much in love

Like a little soldier

Catching butterfliesNo man loved like I love you

Wouldn't you like to love me too

In the heat of the morning

In the shadow

I'll clip your wings

And I'll tell you I love you

In the heat of the morningI'll tie

A knot in rainbow's end

Organise the breeze

Light my candle from the sun

I'll give you

Daylight for a friend

I'll do all of these

I'll prove that it can be done

Oh, I'm so much in love

Like the ragged boy

Who races with the windNo man loved like I love you

Wouldn't you like to love me too

In the heat of the morning

In the shadow I'll clip your wings

And I'll tell you I love you

In the heat of the morningIn the heat of the morning

In the shadow I'll clip your wings

And I'll tell you I love you

In the heat of the morningOh, yeah, all day, all the way
