## HEALTH

Love, save us once  
We'll fall from where we've crawled  
Love, save us once  
Beware what you want Trust us now  
It's time to let me go  
Give up on us  
Follow what you want  
Trust us now  
It's time to let me go  
Give up  
Give our soul away Now you will go  
Save us once  
You'll never let go  
Where we crawled  
Your memories are wrong  
Save us once  
You'll never wake up  
What you thought you want Trust us now  
It's time to let me go  
Give up on us  
Follow what you want  
Trust us now  
It's time to let me go  
Give up  
Give our soul away You'll never wake up  
It's time to let me, never let go  
Follow in your memories alone  
It's time to let me, never let go  
We die alone
