Avenging Angels (The Jumping Soundboy Mix)

Space

Calling all avenging angels
Vengeance, you know it tastes so good
Vengeance is as cold as ice
When it has you in its sights
When it has you in its sightsCalling all avenging angels
(Angels, kick ass angels)
Calling all avenging angels
(Angels, kick ass angels)You could give a call to Scotland Yard
Or send for help from the FBI
But they won't stop a bomb going off
With only seconds on the clockCalling all avenging angels
(Angels, kick ass angels)
Calling all avenging angels
(Angels, kick ass angels)Angel, oh angel
Here to brighten up my darkest day
Take me in your arms
Protect me from my enemies
(Enemies)Oh deadly angel, oh angel
And when they've got me on my knees
When they're just about to do the deadly deed
You rescue me, you rescue me, you rescue meCalling all avenging angels
(Angels, kick ass angels)
Calling all avenging angels
(Angels, kick ass angels)
