Don't Blame Me

Ozzy Osbourne

Everywhere I go people always seem to know
Who I am and what I'm about
When they look to me I'm not really what they see
But in their minds there is no doubt
I'm goin' nowhere, I'm goin' nowhere baby
Nowhere baby
I'm goin' nowhere, I'm goin' nowhere
Television, superstition
Genicidal can not see
Politicians make decisions
They're the one's to blame
So don't blame me
Turn the channel when you see, now your big time on TV
But something that you'll never know
I'm just a simple man, gettin' by on what I can
My pastor's got me on the run
I'm goin' nowhere, I'm goin' nowhere baby
Nowhere baby
I'm goin' nowhere, I'm goin' nowhere
Television, superstition
Genicidal can not see
Politicians make decisions
They're the one's to blame
So don't blame me, don't blame me
Don't blame me, don't blame me
Everywhere I go people always seem they know
Who I am and what I'm about
When they look to me, I'm not really what they see
But in their minds there is no doubt
I'm goin' nowhere, I'm goin' nowhere baby
Nowhere baby
I'm goin' nowhere, I'm goin' nowhere
Television, superstition
Genicidal can not see
Politicians make decisions
They're the one's to blame
So don't blame me, don't blame me
Don't blame me, don't blame me
Don't blame me, don't blame me
