

Island Life

Janet Jackson

Come into this sacred and erotic dream
It's a world I know you wanna share
Baby, let's indulge in things that set our bodies free
Promise me that you will meet me there What better way than to wind down
On streets paved in harmony
I like the sexy sounds from the DJ
Damn, I think he's spinning this one for me Island in the sun, just you and I will go
Ride into the wave like echo
When I hear that song I wanna be with you
Headed for the nightlife echo Close my eyes and there you are in front of me
Takin' me to where I wanna go
Baby, from my little shop of curiosities
Boy I'll show you all you need to know, come on baby What better way than to wind down
On streets paved in harmony
I like the sexy sounds from the DJ
Damn, I think he's spinning this one for me Island in the sun, just you and I will go
Ride into the wave like echo
When I hear that song I wanna be with you
Headed for the nightlife echo What better way than to wind down
On streets paved in harmony
I like the sexy sounds from the DJ
Damn, I think he's spinning this one for me Island in the sun, just you and I will go
Ride into the wave like echo
When I hear that song I wanna be with you
Headed for the nightlife echo Island in the sun, just you and I will go
Ride into the wave like echo
When I hear that song I wanna be with you
Headed for the nightlife echo Island life, sunshine and paradise
All night I wanna give it to you
Island life, sunshine and paradise
Every night I'm gonna give it to you Island life, sunshine and paradise
All night I wanna give it to you
Island life, sunshine and paradise
Every night I'm gonna give it to you Gimme the high life
Gimme the good life
Gimme the good life
Gimme the good life
