

# Wicked World

Jaime Wyatt

Baby you're nothin but trouble,  
With a capital T  
Know that I'd split on the double,  
If I knew what's good for me You're least likely to succeed,  
But you look good right next to me In this wild, wild wicked world  
It's a wild, wild wicked world  
Just another young girl  
In this wild, wild wicked world  
Tryin to get it right now But there's enough sirens at the water  
Tryin to take you to school  
They're castin their voices out to get you  
But you're nobody's fool They say you're wise beyond your years  
Not so wet behind the ears But it's a wild, wild wicked world  
It's a wild, wild wicked world  
Just another young girl  
In this wild, wild wicked world  
Tryin to get it right now Get it right  
Get it right, now  
Get it right  
Get it right, now And I crashed hard when you broke my heart  
Tumbled to a brand new start In this wild, wild wicked world  
It's a wild, wild wicked world  
Just another young girl  
In this wild, wild wicked world  
Tryin to get it right now Get it right  
Get it right, now  
Get it right  
Get it right, now
