

# Lasting Love

Sal Mineo

I believe someone up above  
Made me just for you to love  
Chose you, dear, from all the rest  
They knew I'd love you best

Once I heard him say to me  
Loneliness was meant to be  
Make a wish on the stars above  
And you'll find lasting love

Heaven must have heard my prayer  
For when I looked I found you there  
Now the world is mine at last  
'Cause I found lasting love

Now each time you cling  
Heaven offers eternity  
Angels sing from above  
They bless our lasting love

Heaven must have heard my prayer  
For when I looked I found you there  
Now the world is mine at last  
'Cause I found lasting love

Now each time you cling  
Heaven offers eternity  
Angels sing from above  
They bless our lasting love

They bless our lasting love
