

# ...And Soon the World Will Cease to Be

## Amon Amarth

The Northern wind brings snow and ice  
Humans starve and freeze  
The Fimbul winter has arrived  
And soon the world will cease to be  
Brother will be brother's bane  
No one shall be spared  
All will die, none remain  
That is mankind's share  
The southern sphere is set ablaze  
Muspel's fire is set free  
The sun is on its final chase  
And soon the world will cease to be  
Across the western sky he runs  
A wolf so grim and mean  
Devours the eternal sun  
And soon the world will cease to be  
The North Star falls from the sky  
Into the deep cold sea  
The first of all to fall and die  
And soon the world will cease to be  
Will cease to be  
Muspel's flames lick the sky  
Hidhgg eats the dead  
The Aesir meet in hall up high  
And Oden 'quests Mimer's head  
Land is swallowed by the waves  
Rocks and mountains break  
Dead men on the path to Hell  
And Yggdrasil quakes  
From the East comes a ship  
Loke holds the oar  
A demon army with swords that rip  
Will join the final war  
The army of the dead arrives  
Heimdall blows his horn  
Calling Gods out to die  
Before the world can be reborn  
Reborn
