

# Say It

## Maribelle

[verse 1]

you show up, late now

so do don't lie

(tell me why you're hear all the time)

I feel love, there's some signs

so love mine

(tell me why you're hear all the time)[pre-chorus]

looking for somebody to lean on

well i've been right here by your side

and its easy to read all this wrong

but if i'm right[chorus] x2

say it for me

so i've heard it

say it for me

just confirm it

i just need to hear it in person

and ill keep it between us

say it for me

say it for me[verse 2]

Your eyes locked, on my lips

you can have this just

(tell me that i'm reading you right)

there's moments, we pause in

when your hands, lips, just

(tell me that i'm reading you right)[pre-chorus] x1[chorus] x2Just say it for me, yeahit wouldn't kill you to say

it for me now

(say it for me)

dont want to be the last one to find out

(say it for me, yeah)

it wouldn't kill you to say it for me now

say it, just say it for me

dont wait just say it, say itwhat if i could make the moment perfect for you

would you say all the things i want you to

would you say what you wanted, what would you do?

dont wait justsay it for me

so ive heard it

say it for me

just confirm it

i just need to hear it in person

and ill keep it between ussay it for me x3
