Circus

Craig Cardiff

how did you sneak in i thought all the doors had been closed?
now that you're here i don't think i can stand to see you go
i am only i am only i am only i you are only you
we are only we for a little whilewith the night as our blanket
ghosts in the yard
you lean in close and say
i think we can go farme i'm always drowning water whiskey wine
look how we've managed to make a circus of us this time
i am only i am only i am only i you are only you
we are only we for a little while withthe night as our blanket
ghosts in the yard
you lean in close and say
i think we can go far
