

# Circus

Craig Cardiff

how did you sneak in i thought all the doors had been closed?  
now that you're here i don't think i can stand to see you go  
i am only i am only i am only i you are only you  
we are only we for a little while with the night as our blanket  
ghosts in the yard  
you lean in close and say  
i think we can go far i'm always drowning water whiskey wine  
look how we've managed to make a circus of us this time  
i am only i am only i am only i you are only you  
we are only we for a little while with the night as our blanket  
ghosts in the yard  
you lean in close and say  
i think we can go far
