Get Over It

Lil' Mo

First of all my numbers ain't listed so how you get my digits
You call my crib, my cell, my job and even left a message
You out of line shorty, you bout? to piss me off
You don?t even know me that way
You callin' me, stalkin' me, emailin' me
Tellin' me my man ain't being true
Said ya had rendezvous, you have the proof
What the use of me losing my cool, losing my man, my sanity
'Cause you miserable but I trust my man and I love him to
That?s to much to lose if he is dissin' me over you
Get over it, leave us be
What once was yours now belongs to me
We?re happy, stop stressin' me
He belongs to me so get over it
Get over it, leave us be
Get on with your life, stop bothering me
We?re happy, stop stressin' me
He belongs to me so get over it
It?s a mistake, your games are gon? ruin my house
So, I don?t trust my man and I'm kicking him out
You say he cares for you and he?s been there for you
Can you hear yourself, you sound like a fool
If what you sayin' is true, why you telling me
To get under my skin, to get at me
Girl you make me say, ah, ah, ah, ah, ah
You doing wrong for this but I'mma tell you simple and plain
Get over it, leave us be
What once was yours now belongs to me
We?re happy, stop stressin' me
He belongs to me so get over it
Get over it, leave us be
Get on with your life, stop bothering me

We?re happy, stop stressin' me
He belongs to me so get over it
Now that he?s gone, you can't take it
Treated him so wrong
And you wish you had another chance
But he?s my man

Stop callin' me, stop stalkin' me
Emailin' me, telling me
You get at me 'cause you miserable
Leave me alone, leave us alone
Stop mockin' me, stop jockin' me
Don?t call my phone no more
Or ride past my crib no more
Don?t call my job no more, I'm ma call the law
Leave me alone, leave us alone
Get over it, leave us be
What once was yours now belongs to me
We?re happy, stop stressin' me
He belongs to me so get over it
Get over it, leave us be
Get on with your life, stop bothering me
We?re happy, stop stressin' me
He belongs to me so get over it
Get over it, leave us be
What once was yours now belongs to me
We?re happy, stop stressin' me
He belongs to me so get over it
Get over it, leave us be
Get on with your life, stop bothering me
We?re happy, stop stressin' me
He belongs to me so get over
