

Second Thoughts (feat. Lucas Hoge)

[Stephanie Quayle](#)

Met the key at the door, then he walked me to the bar
Sat down and ordered me a tall glass of something strong
I'm gonna use that tall glass ooh to drown my way back
Way back to the love we had

So until then

Oh until then

Well I'll have another round

Another round of second thoughts

Until I don't feel the cost of all the things we did

Right now I want to get lost, get lost in the memories

And the way that it used to be, sh

Ould be, but never will be

So I'll have another round, ohh ohh another round

Another round

Of second thoughts As he poured me another, I couldn't help but wonder

If the night we met I would of just left you alone

I'd erase all the years we had, all the good and bad

I wouldn't feel this pain I have Deep in my heart

So until then, oh until then

Well

I'll have another round

Another round of second thoughts

Until I don't feel the cost of all the things we did

Right now I want to get lost, get lost in the memories

And the way that it used to be, sh

Ould be, but never will be

So I'll have another round, ohh ohh another round

Another round of second thoughts

So pour me another, oh

And keep em coming

Til don't recognize, recognize me

So'll have another round

Ohh another round

Another round of second thoughts
