

Sign On

Earth, Wind & Fire

I get caught up in this insanity
Children buying in the streets
Did you have enough?
Did you have enough?
We've conquered all our eyes can see
But we still live in poverty
Did you have enough?
Did you have enough?
We had decided in our minds
To settle the future of mankind
We've signed on and committed to our love. Every time you see me look around
I can see the people crying out
Cause the fear ain't an hour
Make good on my deep doubt. How do you deny and make it right
Within us?
Sign On
I won't go, I won't leave you be
Sign On
For your way
Sign On
For the fight, do what's right
Our way of life
Sign On
We know that's your way, start today. When I've said a lame word of an excuse
For I feel on my abuse
Did you have enough?
Did you have enough?
We don't care what number you leave
When the truth is there, deep
Did you have enough?
Did you have enough?
We had decided in your minds
To settle the future of mankind
We've signed on and committed to our love. We suffer every minute, every hour
Make the people wanna holler
Lead us, never follow
So this can't be our mother. How do you deny and make it right
Within us?
Sign On

I won't go, I won't leave you be
Sign On
For your way
Sign On
For a better way, start today. Sign on
Sign on
Sign on Sign On
For your way
You walk free
Sign On
For a better world
For a better way
Sign On
For a fight, our way of life
Sign On
For a better way, start today
Sign On
Know I walk, know I agree if you agree
Sign On
For a better way
Sign on
For the fight, make what's right, our way of life
Sign on
For a better way, start today.
