

Devil Spine (Version 24)

Gus Black

You caught me in the morning light
I caught you by your devil spine
You said, I was the wicked worst
That I could never beat your first Well, I held you in the morning light
You said I'd lose the fight
You laugh because you never lose
But you've hanging by your own noose Liar
Liar You kept me in the pocketbook
You told me I was a guilty crook
But I know, yes I stole
The truth from your hold Liar
Liar I left because we don't belong
I left because we don't belong
You caught me in the morning lie
I caught you by your devil spine
I caught you by your devil spine
