

# The Funny Thing About Getting Pistol Whipped Is

## From Autumn To Ashes

Extraction, no one moves  
Aggravation is the current mood  
Closed accounts, prosecute  
Dressed in these outdated suits  
Transmission incorrect  
Is there anyone that's competent?  
Dismissal but I can't vacate  
Forcing my seeds to germinate  
Like history in the making  
Like history in the making  
Can we please blur the edges  
Of this past memory?  
Like history in the making  
Like history in the making  
Can we please blur the edges  
Of this past memory?  
This will make for a great story  
That we will never repeat  
Nod your head, tap your feet  
Because that's the only review I need

Like history in the making  
Like history in the making  
Can we please blur the edges  
Of this past memory?  
Like history in the making  
Like history in the making  
Can we please blur the edges  
Of this past memory?  
These capillaries ball into a fist  
I tuck it safely away inside my pocket  
How can I be more obvious  
Blazers are worthless when you can't produce a hit  
To be the biggest disappointment  
To be the biggest disappointment  
To be the biggest disappointment  
To be the biggest disappointment  
Extraction, no one moves  
Aggravation is the current mood
