

Restless Time

Pennywise

A piece of land - a piece of Life
A piece of land that just won't suffice
A piece of this yeah a piece of that
Let's see a piece of good that just won't go bad
It's a restless time so don't fall behind
You must lead don't you follow
It's a restless time so don't fall behind
You must lead don't you follow
A theory here yeah a theory there
Theories take us all but anywhere
Burning white fade to black
A restless conversation leads to verbal attack
It's a restless time so don't fall behind
You must lead don't you follow
It's a restless time so don't fall behind
You must lead don't you follow
A restless time it never goes away
it's too hard not to be that way
A restless time it never goes away but don't you follow
It's a restless time so don't fall behind
You must lead don't you follow
It's a restless time so don't fall behind
You must lead don't you follow
