

# Supernatural

Sara Evans

I'm a bee charmer for you, baby  
I get you honey if you've got the taste  
A little sting now and then, well, it does not bother me, no  
I don't mind no king bee buzzin' around my face I go with you any way the wind blows  
Straight through the fire into the unknown  
Follow the feelin' 'cause I know it's supernatural  
Supernatural Well, I'm a snake handler from the mountains  
I sing them rattlers off to sleep  
And if my baby says he needs healin'  
There's no fever too hot, no cut too deep I go with you any way the wind blows  
Straight through the fire into the unknown  
Follow the feelin' 'cause I know it's supernatural  
Supernatural I'm a rainmaker in the desert  
I dance and coax the clouds to cry  
I put the bloom back in baby's meadow  
I'll flood the faith back into your eyes And go with you any way the wind blows  
Straight through the fire into the unknown  
Follow the feelin' 'cause I know it's supernatural  
Supernatural Go with you any way the wind blows  
Straight through the fire into the unknown  
Follow the feelin' 'cause I know it's supernatural Go with you any way the wind blows  
Straight through the fire into the unknown  
Follow the feelin' 'cause I know it's supernatural Come on, come on, come on, come on, go with it, baby  
Supernatural  
Come on, come on, come on, come on, go with it, baby  
Supernatural  
Come on, come on, come on, come on, go with it, go with it  
Supernatural, supernatural
