

# Mr. Put It Down (Noodles Remix) [Dub Mix]

[Ricky Martin](#)

[Pitbull Rap]

Now first of all

Come on baby take it off,

Come on baby break me off

Then she said she loves the fact

That Pitbull's such a dog!

It's simple baby, I ain't picky.

Only rule of mine is no hickeys

Remember, lust can get tricky.

It's Mr. Worldwide and Ricky, dale[Ricky Martin]

I'm not tryna get in your head

And I'm not tryna push your limits

Cause I just wanna make you feel special

A little fun, little love, little dancing

Who has to love to live in

We got the night right now

We need to want unclearly

You're gonna call me mr. put it downBaby give me that, give me that

Hi give me that, give me that

Baby give me that, give me that

Hi give me that, give me that

Baby give me that, give me that

Hi give me that, give me that

Baby give me that, give me that

Hi give me that, give me thatBaby I can recognize from miles away that you don't wanna be alone

Ain't nobody looking like you do today

So tell me how to turn you onI'm not tryna get in your head

And I'm not tryna push your limits

Cause I just wanna make you feel special

A little fun, little love, little dancing

Who has to love to live in

We got the night right now

We need to want unclearly

You're gonna call me mr. put it downBaby give me that, give me that

Hi give me that, give me that

Baby give me that, give me that

Hi give me that, give me that

Baby give me that, give me that

Hi give me that, give me that

Baby give me that, give me that  
 Hi give me that, give me that[Pitbull Rap]  
 It's the P to the I-I to the T-T to the B-B to the U and double the L
