

Shades Of Grey

Al B. Sure!

I guess you don't understand why
I want to be with you
You fascinate me
Yeah, you know why?
It's all in shades of grey! Your life is yours, my life is mine
It could last forever if we took the time out to
Show the love that we share
I'll relax you places he wouldn't dare! It's all in shades how I really feel
I won't play, I won't ever ever mess around
Can't you see oh how much I really love you?
They try to say that you're too old for me
But they don't understand It's all in shades of grey, yes I do love ya'
You've been touched before...
But this means so much more
Yeah it's all in shades of grey
Yeah I know this love is real...
From the way that I feel
Yes I do love ya' When you look at me what do you see?
Is it a young boy in a man body?
My lady you'll never know if you turn me away
This young boy just might make your day! It's all in shades how I could make you feel
I won't play, ooh let me hold you in my arms
Can't you see oh a love so rare and strong?
They try to say that you're too old for me
But they don't understand It's all in shades of grey,
Our love won't go away
It gets stronger by the day, just got to love ya'
It's all in shades of grey
Yeah it's all in shades of grey
A man so young and strong it won't be long girl
Yes I do love ya', aah yeah It feels so strong it won't be long
Let me lay you down
It's all in shades of grey
It's all in shades of grey
Oh they try to say You know, they try to say that
You're too old for me
But they don't understand
They just don't
Yes I do love you Forget about the things that they say

Let's forget the things they say
You won't regret tonight if you'll stay
There's no question in my mindLook into my eyes don't turn away
 Girl just look into my eyes
 A love to last forever and a day
And you know that we could loveIt's all in shades of grey yeah
 It's all in shades of grey yeah
 It's all in shades of grey yeah
Yeah you know what they try to sayYou know I love you (It's all)
 Yes I do love you (in shades of grey)
And there's no one that comes above youTake you places, see new faces
 You'll be glad that you got to taste this
 You'll be so gladTake you places, see new faces
 You'll be glad that you got to taste this
 You'll be so gladBaby come to me
I'll give you what you needIt's all in shades of grey
 It's all in shades of grey
It's all in shades of grey yeahIt's all in shades of grey
 It's all in shades of grey
 It's all in shades of grey yeah
