## Evan Taubenfeld

I'm not, I'm not trying to fight you  
I'm just trying to love you  
Check it out yo, she got it going on baby  
Check it out yo, she got it going on baby  
Check it out yo, yo, she got it going on baby  
Check it out yo, check it, check it out  
Look clearly it is plain to see, if it ain't meant to be  
Then please explain to me how we, we have come to be  
You have come to me although we can't agree  
And I know it often angers me, it often angers you  
That's the pain'll do, especially when they're saying to you  
All the things you don't see, but they saying I do  
But I'm saying I do, on my name I do  
Retire my jersey let 'em hang my shoe  
Right on the telephone wire, let's grow, let's go higher  
Till we're both old and tired  
'Cause even when we die, our souls won't expire  
So yup, I really want to know since it's really on you  
Let me hold my arms around you girl then take your fear away  
If loving you is wrong I'd rather be wrong, I'm here to stay  
I do it all for you, my feelings are true from the very depth of my heart  
And don't you never ever, ever forget it babe  
Hey girl, you know you're so damn fine  
Yo, I'm about to lose my mind  
Hey girl, you know you're so damn fine  
Yo, I'm about to lose my mind  
Clearly it is plain to see all the things I do affect you painfully  
And no, you shouldn't change for me  
You should change for you whatever change may be  
A thorn is never pretty as the flower  
But the prettiest flower seems to have the most thorns  
We as stubborn as a bull with both horns  
All you got to say is I do and maybe we can go on  
And no this ain't no song  
  
If loving you is right then there ain't no wrong  
Therefore we can't grow long  
Like a man with no arms I just can't hold on  
Knowing that you ain't mine officially

I've got nothing but love like everyone get [Incomprehensible]  
So girl I really wanna know since it's really on you, say  
Let me hold my arms around you girl then take your fear away  
If loving you is wrong I'd rather be wrong, I'm here to stay  
I do it all for you, my feelings are true from the very depth of my heart  
And don't you never ever, ever forget it babe  
Look this ain't a love song, this ain't a club song  
I'm on my LL shit, this ain't a thug song  
This is a strictly from me to us song  
So I guess that makes it more an us song  
This ain't a love song, this ain't a club song  
I'm on my LL shit, this ain't a thug song  
This is a strictly from me to us song  
So I guess that makes it more an us song  
All my newlywed couples do you feel me?  
All my couples still together do you feel me?  
All my puppy love couples do you feel me?  
You've been together for a while I know you feel me  
All my newlywed couples do you feel me?  
All my couples still together do you feel me?  
All my puppy love couples do you feel me?  
You've been together for a while I know you feel me  
Let me hold my arms around you girl then take your fear away  
If loving you is wrong I'd rather be wrong, I'm here to stay  
I do it all for you, my feelings are true from the very depth of my heart  
And don't you never ever, ever forget it babe  
Hey, I need a honey, I need a honey, honey  
I need a honey, oh be my honey, ay  
I need a honey, I need a honey, ay  
Oh, be my honey
