

# Devil's Playground

## The Rigs

Come, if you're curious to see  
Pull the tricks out of my sleeve  
All you find is yours to keep  
Brave, are you brave enough to meet  
The desires that you seek  
Hold my hand, I'll set you free

Welcome to the devil's playground  
You can tread where demons play  
It's your Candyland where dreamers dance  
And I promise that it's safe  
Welcome to the devil's playground  
You can look and you can touch  
It's a real fine day at the black parade  
And I swear it won't cost much

Come, pull up your throne and sit  
Where good and bad cease to exist  
Here your command is our wish  
Feast on the fruit of every tree  
You can bathe in every dream  
These chains of freedom are yours to keep

Welcome to the devil's playground  
You can tread where demons play  
It's your Candyland where dreamers dance  
And I promise that it's safe  
Welcome to the devil's playground  
You can look and you can touch  
It's a real fine day at the black parade  
And I swear it won't cost much
