# We Could Be the Same

## MaNga

You could be the one in my dreams
You could be much more than you seem
Anything I wanted in lifeDo you understand what I mean?I can see that this could be faith
I can love you more than they hateDoesn't matter who they will blame
We can beat them at their own gameI can see it in your eyes
It doesn't count as a surprise
I see you dancing like a star
No matter how different we areFor all this time I've been loving you
Don't even know your nameFor just one night, we could be the same
No matter what they sayAnd I feel I'm turning the page
And I feel the world is a stageI don't think that drama will stop
I don't think they'll give up the rageBut i know the world could be great
I can love you more than they hateDoesn't matter who they will blame
We can beat them at their own gameI can see it in your eyes
It doesn't count as a surprise
I see you dancing like a star
No matter how different we areFor all this time I've been loving you
Don't even know your nameFor just one night, we could be the same
No matter what they sayFor all this time I've been loving you
Don't even know your nameFor just one night, we could be the same
No matter what they sayNo matter what they say
No matter what they sayWe could be the same
No matter what they say
