Chimneys

HillaryJane

Hey, what you looking at?
Thought I told you couple times I ain't going back, back

I could see straight through you every time
Now I see why people were telling me turn my back, back
On you, you
you ain't got nothing for me
You, you
You ain't got nothing I need
You, you
You ain't got nothing
But cheap bets and fast threats
Deep debts and regrets

Call it what you want
Call it what you will
But you're only blowing smoke like a chimney when you lying to me
Think what you want
Following His will
'Cause you're only blowing smoke like a chimney when you lying
Taking over
Taking over
I can finally breathe
I'm taking over
I'm taking over
Surrender to my King now

I tell ya whatcha looking at
I'm a strong individual
Ain't even reached my pinnacle

I see straight through you every time
Now I see why people were telling me turn my back, back
On you, you
you aint got nothing for me
You, you
You aint got nothing I need
You, you
You ain't got nothing
But cheap bets and fast threats

Deep debts and regrets

Too bad that I'm wiser now
So sad I devised your prowl
And I see you tryna pluck me out
You should really put ya pliers down
You been blowing smoke for a minute
Lie down 'cause you finished
Excuse me if I'm blunt
But I'm done with all of yo gimmicks
Get it

Call it what you want
Call it what you will
But you're only blowing smoke like a chimney when you lying to me
Think what you want
Following His will
'Cause you're only blowing smoke like a chimney when you lying
Taking over
Taking over
I can finally breathe
I'm takin over
I'm taking over
Surrender to my King now

You blow smoke like a chimney in the winter time
We both know that I'm only getting wiser now
You blow smoke like a chimney in the winter time
We both know that you taste of being number time

Call it what you want
Call it what you will
But you're only blowing smoke like a chimney when you lying to me
Think what you want
Following His will
'Cause you're only blowing smoke like a chimney when you lying
Taking over
Taking over
I can finally breathe
I'm taking over
I'm taking over
Surrender to my King now

Surrender to my King now
Surrender to my King now

Surrender to my King now
Surrender to my King now
