

# Spinning Me Round

## Modern English

When someone close is always on your mind  
A memory of a place, another day and time  
Some would say you died and left your hearts behind  
But it's with your heart you're searching all the timeI want you with me, I need you near me  
I want so much from you anewThe dreams we had were rather common line  
And in their wake there came the fear you'd changed your mind  
Spinning me, spinning me round, spinning me  
Spinning me, spinning me, spinning me roundI want you with me, I need you near me  
I want so much from you anewI want you with me, I need you near me  
I want so much from you anewI want you with me, I need you near me  
I want so much from you anewAnd if you lose your minds, never leave your hearts behind  
To find yourself is worth the waiting, finding, then really living  
Spinning me, spinning me round, spinning me  
Spinning me, spinning me, spinning me roundI want you with me, I need you near me  
I want so much from you anewI want you with me, I need you near me  
I want so much from you anewSpinning me, spinning me round  
Spinning me, spinning me round  
Spinning me, spinning me round
