

# No Life Singed Her

## Pavement

Take me down from the ridge  
Where the summer ends  
We'll watch the city spread out  
Just like a jet's flame I've got a secret for you  
I cut your angel in two  
I left her bleeding  
And soaked it with a dry sponge No life has singed her now  
No life has singed her now  
No life has singed her now  
I can see it fade We've got a license to live  
It's our only one  
If it expires  
We float up to the dust haze I've got a secret for you  
I cut your angel in two  
I saw her spinning and dripping  
On your new dress No life has singed her now  
No life has singed her now  
No life has singed her now  
I can see it fade
