Buddies

Luke Bryan

Buddies
They roll up in the morning and hand you a coffee tell ya hurry up, the fish aint gonna wait on you buddies. They don't give you no warning when you shoot up a stop sign out on some old county road.
I've got ones that I've fought with and outrun the law with and ones that I'd give my last dime if I had it one on the wagon and one out there draggin a plow behind an old john deer. They work hard for there money there boots all stay muddy all my beer drinkin deer draggin dusty dirt road ridin buddies
Buddies the smell trouble before it happens, and if it starts to happen there right with you rolling in a parking lot buddies. They make your girlfriend so mad keep your mamma up from sleeping cause they both know to well that
I've got ones that i've fought with and outrun the law with ones that i'd give my last dime if i had it one on the wagon and one out there draggin a plow behind an ol' john deer They work hard for there money there trucks all stay muddy all my beer drinkin deer draggin dusty dirt ridin buddies.
I've got one in a humvee that keeps all of us free the one that got his heart broke and went half crazy one that moved far away one that rings my phone everyday and one where he heres this it he'll shed a tear. They work hard for there money there trucks all stay muddy all my beer drinkin deer draggin dusty dirt road riddin buddies
