Inside the Cage

Juliette and the Licks

It was a thousand pound weight
Moon down on the sun
I lost you sleeping, took off with my fun
You'll find the door on the other side, other sideI'll waste, I'll waste, I'll waste inside the cage
I'll waste, I'll waste, I'll waste insideYou crawl like tipped wine
Cheap tricks and dirty calls
Watching paint dry is good for the walls, it's good for the walls
Silence is deep, never what you'd thinkI'll waste, I'll waste, I'll waste inside the cage
I'll waste, I'll waste, I'll waste inside the cage
I'll waste, I'll waste, I'll waste inside the cage
I'll waste, I'll waste, I'll waste insidePressure is building up, pressure and pressure is building up
Pressure is building up, pressure and pressure is building up
Pressure is building up, pressure and pressure is building up
Pressure is building up, pressure and pressureIt was the great escape
Foiled guards left in wait
I changed, I came undone
Inside the cell, I wouldI'll waste, I'll waste, I'll waste inside the cage
I'll waste, I'll waste, I'll waste inside the cage
I'll waste, I'll waste, I'll waste inside the cage
I'll waste, I'll waste, I'll waste inside
