Five Minutes

Scattered Trees

I'm right here
Five minutes at a time
I'm goneI can't breathe I'm in too deep
So take me up to the surface, take me up to the surface
And I won't dream for fear of sleep
Take me up to the surface, take me up to the surfaceCould you see beyond the leaf?
But it was me who was searching
To take you up to the surface
I was lost but I was free
It took the pain to remind meWe loved you every time
We loved you every time
I'm right here
Five minutes at a time
I'm goneI can't relate to what I say cause I'm not myself
I can't relate to what I say cause I'm not myself
I can't relate to what I say cause I'm not myself, I'm notI'm right here
Five minutes at a time
I'm gone
I'm right here
Five minutes at a time
I'm gone
