

# Turn Around

## Bruno Mars

I, I, I don't know why, why

It seems like every other night you pick a fight, fight.

And I know I do the same, be callin' you out your name,

This is not what lovers are suppose to do. You tell me to go, I start walkin out,

We both know what we're all about.

We fuss, fight, and scream,

And it's all because of love,

but you know we ain't ever giving up. Everytime I try to leave

Somethin's tells me turn around

'Cause how could I ever leave

The only one that holds me down

'Cause I know we can work it out

Talk it out, stick it out oohh

Everytime I try to leave

Find that we can figure it out

That's why I always turn around Baby, before you say, say,

Something you know you'll take back later on today, day.

Sometimes you drive me crazy, but I love ya, baby

All I ask is that you'll always appreciate me, ooohh. You tell me to go, I start walkin out,

We both know what we're all about.

We fuss, fight, and scream,

And it's all because of love,

but you know we ain't ever giving up. Everytime I try to leave

Somethin's tells me turn around

'Cause how could I ever leave

The only one that holds me down

'Cause I know we can work it out

Talk it out, stick it out oohh

Everytime I try to leave

Find that we can figure it out

That's why I always turn around Ain't nobody that can love me, like you love me.

That's why I always turn around for you, you you, youuuu. You, you you, youuu.

Ain't nobody that can love me, like you love me.

Thats why I always turn around. For you, you you, youuuu. You, you yooou. Everytime I try to leave

Somethin's tells me turn around

'Cause how could I ever leave

The only one that holds me down

'Cause I know we can work it out

Talk it out, stick it out oohh

Everytime I try to leave  
Find that we can figure it out  
That's why I always turn around
