## Jeru the Damaja

Electromagnetic beam, I get charged  
Rhymes I run right thru em like a big box of Trojan large  
Mc's tried to hang but its a Brooklyn thang  
Poison slang, poison fang  
Poison pen let me begin  
Tryin to rhyme up in my cipher is gambilin  
Freestylin me g, I be buckwilin  
You can't even challenge a nigga in my position  
Technician, renditions more freaky than Rick James  
Fly like airplanes thru all it remain the same  
My cuts like Freddy Krueger  
Dont need a German Luger  
But shoot more shit than Sturm-Ruger  
Dirty rottens comin thru punks cling to their guns  
Dont start none, there won't be none  
Cuz ah, fuck around and it'll be tragicAnd I could rock a rhyme with just statikDevastating, I gotcha heart  
pulsating  
Kool-Aid, you need aid, ejaculating  
Rhymes like semen, Mc's is scheming  
Tryin to bag me baby black you must be beemin  
Feenin, I dont know who gased ya head up  
Im straight up, for less niggas have got wet up  
Im on a mission, scrambling my enemies transmission  
When he least expect it, run up in his h-q  
Hi I.Q., every verse is e-q ued  
Slither like a snake, still you can't elude  
The neba, but not caneza  
Its the toucha, no gun or God can protect ya  
Neither the scripture, choke like a boa constrictor  
This is my house and I'll evict ya  
Big respect is automatic blackI'll snatch up your girlfriend, her friend and their friends  
I got the game & fame she got the condoms  
She's a victim, you shouldn't have that mouth dirty rotten  
And for the longest we knew you were plottin'  
On the down fall, who stands tall, lick the balls  
Im not like that, so I smash out pussy walls  
On the low, oh no, on the high  
I get high, praise to the most high  
Tried to battle me, step up & die

Like the arc of the covenant I electrify  
Petrify, intelligence I glorify  
So devils are horrified  
Sprayin like pesticide, come commit suicide  
Step into my realm and be fried
