

In My Arms

Dead By April

Don't look down, don't look back, I am beside you
Close your eyes, know I'm here
I know it's hard to let go, all that defines you
You feel like you'll never be whole again

(We will find a way to erase the past, stay with me, stay with me)

In my arms, you'll be fine, I'll never let go
All you've lost will come again, just stay with me
Never look back, never again, it's over
Everything ends here in my arms

Don't give in, don't let your memories break you
Let me take you away from here

(We will find a way to make this last, stay with me, stay with me)

In my arms, you'll be fine, I'll never let go
All you've lost will come again, just stay with me
Never look back, never again, it's over
Everything ends here in my arms
I'll be here forever (Everything ends)
Here in my arms I'll be here forever (Everything ends in my eyes)"

I'll be here forever, forever (forever)
In my arms, (In my arms)you'll be fine, (you'll be fine) I'll never let go
All you've lost (All you've lost) will come again (will come again), just stay with me
Never look back, (Never look back) never again, (never again) it's over
Everything ends here in my arms
