

Soul Motion

Richard Marx

I've got the fever, poison in my veins
My mind ain't workin' right
I know the answer, way to ease this pain
Only got myself to fight
I can see clearly but choose to be blind
A slave to desire, holdin' me, scoldin' me
Changin' your mind, you're like playin' with fire
I need you, I want to stay on this soul motion ride
There is no danger when you're here by my side
Given some distance, just a little time
Right and wrong seems clear
But my sense of reason is nothin' but unkind
Every time that you're near
Over and over I say to myself
She's only playin', ten thousand reasons
To find someone else, still I hear myself sayin'
I need you, I want to stay on this soul motion ride
There is no danger when you're here by my side
Baby, I need you, I want to stay on this soul motion ride
There is no danger when you're here by my side
I'm out here on the edge and I know what's in store
It should be over and done, just let go and run
But I've tasted too much, nothin's the same anymore
Baby, I need you, I want to stay on this soul motion ride
There is no danger when you're here by my side
Baby, I need you, I want to stay on this soul motion ride
There is no danger when you're here by my side
My baby, baby
