

# All I Know Is What You Tell Me

[Stephen Stills](#)

All I know is what you tell me, What you tell me, Will it help me?  
Late at night, in the Morning, I'm in Mourning, In the Morning  
And the Lonely day in front of me,  
So don't let it be I would never say goodbye,  
Don't you Pity me but if you never said goodbye, it would hurt me,  
All day long my thoughts are tumbling, got me mumbling, with the tumbling,  
A candle blows, the search for answers,  
but No one answers, except the dancer,  
and shes a lonely girl, same as me
