# Coming Home

## Gorgon City

I want these streets unanswered
So I keep calling heaven
Meant to be back home with you
My shining star, you got me
Miss lightning bolt inside me
Will you wait, I won't be longI won't let, I won't keep anything
Hold me back from you
I'm telling the
Truth I'm promise you
I'll be there soonI'm coming home to you
I'm coming home to you
I'm coming home to you
I'm coming home to youThese days grow long and weary
It takes its toll I'm dreary
Smell your fragrance in the air
So close I'm weak and tired
Was lost but now I found it
Hear your voice get loud and clearI won't let, I won't keep anything
Hold me back from you
I'm telling the
Truth I promise you
I'll be there soonI'm coming home to you
I'm coming home to you
I'm coming home to you
I'm coming home to you'Cause I'm coming home to you
I'm coming home to you
I'm coming home to you
I'm coming home to youComing home
And I'll be back before you wake
See I'll be back before you wake, darling
I'll be back before you wake
When I'm near you I'm alive
When I feel your love I fly
What I need is you and I
I'll be there soonI'm coming home to you
I'm coming home to you
I'm coming home to you
I'm coming home to you'Cause I'm coming home to you
I'm coming home to you

I'm coming home to you
I'm coming home to youComing home
