Pull Up

Mayzin

I look so uptown but I'm downtown with these hoes no.
They don't question shit, they take pictures with me when I pose no.
Still with the same gang that's me, myself and I hold it down.
Still on the same shit, I can't pull my brakes I never slow down.
Yeah, still in the city for real still in the city for real.
Even when they never see me, they still wanna be me for real
Cause Mayzin keep it so real and that's trill.
Even since high school, yeah.
Trendsetter man I've been veteran, they ain't seen me then
But now the score settled now a nigga popping let the corn kettle
I'm a feature flick when they see me, (pull up) fuck your driver need a DD (pull up)
Flexing on them like a hitta (pull up), he only singing tell them niggas shut up
Fuck every single should've, would've, could've I done heard it all man I had em all
Put the excuses behind me and figured I had to ball, so I brushed it off
I've been reaching for the stars, I can't wait until the world is ours
You niggas need to pull up, pull up, pull up, pull up
Got something to say then nigga pull up, pull up
I've been reaching for the stars, I can't wait until the world is ours
You niggas need to pull up, pull up, pull up
Got something to say then nigga pull up, pull up
Fuck all that internet talking, I know that you got better options
You throwing that shade while my Twitter you stalking
And all that hate for what nigga just stop it
I know that you watch from the sidelines, but me I never could find time
To respond, I respond on beats, I beast on em, going back and forth I don't need no seesaw
Excuse I'm killer, summer is mine ain't no way around it
Damn what a feeling, looking for the vibe and I'm glad you found it
I'm a feature flick when they see me, (pull up) fuck your driver need a DD (pull up)
Flexing on them like a hitta (pull up), he only singing tell them niggas shut up
Fuck every single should've, would've, could've I done heard it all man I had em all
Put the excuses behind me and figured I had to ball, so I brushed it off
I've been reaching for the stars, I can't wait until the world is ours
You niggas need to pull up, pull up, pull up, pull up
Got something to say then nigga pull up, pull up
I've been reaching for the stars, I can't wait until the world is ours
You niggas need to pull up, pull up, pull up, pull up
Got something to say then nigga pull up, pull up
