Urko's Conquest

Cathedral

Are you ready?
Are you ready?
Come on, let's take it to the topUrko rides his troops into the flames
Sirens of doom, the earth it shakes
Wars and plagues have fueled the beast of rage
Mutated humans pay the priceSpaceship year warped
Crash lands ahead of time
Apes and gorillas
Now rule your earth that diedSacrifice, the astronauts must die
Gorilla guns aim at your face
Surgical apes have taken out your voice
Witness your kingdom, witness hellSpaceship year warped
Crash lands ahead of time
Apes and gorillas
Now rule your earth that diedApe shall not kill ape
Slay the wrath of man
Rape human minds
They shall become our slavesDr Zaius is praying
Human knowledge will never be found
Scientific destruction
History buried undergroundApe shall not kill ape
Mans twisted plan
Space, the universe
Has crumbled in his hands[Incomprehensible] through the apes
Come onTaylor escapes this hell to meet his fate
Upon the shows of suicide
On your knees before the rotted face
Of liberty dead in the sandSpaceship year warped
Crash lands ahead of time
Your world, your nightmare
Doors slam on mankindPlanet of the apes
