

Dr. Greenthumb

Cypress Hill

Hello, I'm Dr. Greenthumb
Have you ever had the problem of running out of weed
And just can't find some anywhere?
Well try my Dr. Greenthumb grow tips
I'll show you how to grow inside and out
From seed to clone, and the best homegrown
And if you're afraid of those pesky pork choppers in the sky
No worries, we'll fix them too
With one of our Dr. Greenthumb 'Sizzlean' screens
To block the nosy pig's vision
Don't believe me?
Just ask one of my many satisfied clients here Jed Sanders
How well it worksHyuh, hyuh, hello mah name is Jaid
And ahm a farmer and I've been growin
Mary-jah-wana fer about twenty years and uhh
With Dr. Greenthumb's 'Sizzlean' screen
I don't have to point my shotgun
At them pesky porkers no more
Thanks Dr. Green, you're tha shitYes, Dr. Greenthumb's got it all, I guarantee it
Try my book and you'll have the chronic in no time
Dial 1-800-713-GROW

G R O-W"Hello Dr. Greenthumb, paging Dr. Greenthumb!"Hello my name is Dr. Greenthumb
I'd like to tell you just where I'm from
In the hills where the trees grow wild with weed fields
The fucking pigs with shields holding the blue steels
Greenhouse effect with the weed connect
(Doctor) DEA can't keep Greenthumb in check (Doctor!)
HPS, God Bless the whole crop
Please God, don't let me see no cops
Trunkload, ready to hit the highway
Don't let the eye in the sky fly my way
Or we gonna have big trouble, that's no shit
Can't be growing without no permit
But fuck that, I study the 215 trip
That way when they come they can suck my dick
Weed can't grow without attention
Hello my name is Dr. GreenthumbHello my name is Dr. Greenthumb

Hello my name is Dr. Greenthumb!
 I'd like to tell you just where I'm from
 Hello my name is Dr. Greenthumb
 Hello my name is Dr. Greenthumb
 Hello my name is Dr. Greenthumb!
 I'd like to tell you just where I'm from
 Ayo Dr. Greenthumb, come on back one time! People can't live without the herb man
 If not they'd be drinking and driving and swerving
 But thanks to Dr. Greenthumb weed grow
 In the backyard or inside with hydro
 To the kush plant brushing a tangerine dream
 Tasty, blowing a fucking smokescreen
 Cycles of weed are constantly grown
 Somebody give me the razor to cut groves
 I'd like to stop, but it feels so good
 Horny plants stinking up my whole neighborhood
 Sticky angel, I want to leave it alone
 But never ever ever gotta worry from my home
 What that funny sound knocking at the door (Open up it's the DEA!)
 Sorry Greenthumb can't talk no more
 Please don't follow me into the sun
 Hello my name is Dr. Greenthumb Hello my name is Dr. Greenthumb
 Hello my name is Dr. Greenthumb!
 I'd like to tell you just where I'm from
 Hello my name is Dr. Greenthumb Out from the lab, no need for rehab
 If I can't drive then call me a cab (ese!)
 In my closet the weed is dried out
 Like Eiht said, ain't no place to hide out
 I don't want to buy no weed from no cop
 Get knocked up and they close up my shop
 That's why I buy no weed from no one
 That's why they call me Dr. Greenthumb
 The scientific, mystical one
 Growing my crops with the rays of the sun
 Come one come all and see how it's done
 If you see the pigs there's no need to run
 Cause some of these pigs are down with Greenthumb
 But you never know what be the outcome
 You see the photo in the album
 The weed is growing like my erection
 Look I never told you where I was from
 Some call me Real, but I'm Dr. Greenthumb Hello my name is Dr. Greenthumb
 Hello my name is Dr. Greenthumb!
 I'd like to tell you just where I'm from
 Hello my name is Dr. Greenthumb

Hello my name is Dr. Greenthumb
Hello my name is Dr. Greenthumb!
I'd like to tell you just where I'm from
Hello my name is Dr. Greenthumb
