

# Speed of Light

## Zircon

Drive an easy road  
If you're looking for direction  
Don't forget to set your seat and goTake an easy road  
All you need is information  
Everything is there to knowOnly you and me add up  
Only you and me add upSpeed of light stars and planets  
Taking over, understand it  
Speed of light stars and planets  
Taking over, understand itNeed a changing face  
When the wind's around you blowing  
Don't forget to let your feelings goWasting space  
If you're looking for persuasion  
Everything you need can growOnly you and me add up  
Only you and me add upSpeed of light stars and planets  
Taking over, understand it  
Speed of light stars and planets  
Taking over, understand it
