

# I Apologize

Melanie Thornton

I apologize  
For being faithless  
I apologize  
We all have joy and pain  
I apologize  
For life is not easy I try to live my life being patient  
I try to do it right, sometimes I don't succeed  
There's a guiding light to give me direction  
When I'm standing in the dark Do we have to fight each other?  
Can't we see the needs, are we too blind to see?  
Listen with our hearts is what we need now  
I'll be the first to say I apologize  
For being faithless  
I apologize  
We all have joy and pain  
I apologize  
For life is not easy  
We're only human I apologize  
For being faithless  
I apologize  
We all have joy and pain  
I apologize  
For life is not easy  
We're only human Saying that we care is easy  
But if we're never there it's like a broken vow  
Open up your heart remember  
In life we reap what we sow Hiding from myself won't protect me  
It's me nobody else who ends up as a fool  
No more holding back what I give  
I'll give it straight from my heart I apologize  
For being faithless  
I apologize  
We all have joy and pain  
I apologize  
For life is not easy  
We're only human I apologize  
For being faithless  
I apologize  
We all have joy and pain

I apologize  
For life is not easy We've gotta make a change  
Look into the mirror  
We can turn around  
Life isn't a one way street Listen to your heart  
If you're lost and lonely  
It will show you love For being faithless  
Life is not easy  
Oh, we're only human I apologize  
For being faithless  
I apologize  
We all have joy and pain  
I apologize  
For life is not easy  
I'm only human I apologize  
For being faithless  
I apologize  
We all have joy and pain  
I apologize  
For life is not easy I apologize  
For being faithless  
I apologize  
We all have joy and pain  
I apologize  
For life is not easy  
I apologize
