

# War Between Races

## Warzone

Your prejudiced ways - are so fucked up  
Your mind's so dense - look inside yourself  
You've closed your mind  
I can't get in  
Look at color - not within  
How many must die  
In front of your eyes  
Use your brain - help to stop  
War Between Races  
Gun to my head  
Knife to your back  
Kill everyone  
Nowhere to run  
I wonder how - it all started  
Time is now to stop and think  
You might be next, watch your back  
You've got a choice - tie to act  
War Between Races  
Gun to my head  
Knife to your back  
Kill everyone  
Nowhere to run  
Your prejudiced ways - are so fucked up  
Your mind's so dense - look inside yourself
