First Time

One Voice

(Bridge)
The first time I saw u boy,
You've been always on my mind,
From now on and until the end of time,
I pray that you'll be mine,
Day and night I think about you and now I need you here with me,
Just to be with you in your arms all night,
That's where I want to be.. [Repeat]
Alone in my room, I've got you on my mind,
Been thinkin' bout you all the time,
And what happened last night,
The look in your eyes it really turned me on,
Now I miss you every minute your gone,
So I wrote you this song...
(Chorus)
The very first time that we kiss,
I never had a precious moment like this,
Your always on my mind,

Your on my mind everytime I think I love you boy (x2)
I wished upon the stars above,
Hoping I'm the one you're thinkin' of,
I know it's more than puppy love,
And its somethin' about the way u make me feel,
Talkin' for hours on the phone,
And I wish that I could call you my own,
All of this 'cause of the first time we kissed...
(Chorus)
First Time, First Time, First Time, First Time,
You are on my mind,
OoO... bop pa, First Time
(Bridge)
