Your Love Is So Strong

The Thermals

Advisory - the following lyrics contain explicit language:

Your love is so strong
It cracks at the slightest touch
Your love is so strong
Like nothing it crumbles to dust, to dustYour love is so strong
And it breaks and [Incomprehensible] in pain
Your love is so strong
Like nothing it melts in the rainYour love is so wide
Black on every tide, every sideYour love is strong
It shatters at the slightest hum
Your love is so strong
Like nothing it melts in the sun, in the sunYour love is so strong
It's only a fear in your eyes
Your love is so strong
It's only a series of liesMy love is so lost, I'll sell at any cost
Your love is the seed
It's the promise I need to be deceived
I need to be deceived, to be deceivedYou're all that I need
I'll love you so long
Your love is so strong
