

# Faster Than The Speed Of Life

## Steppenwolf

Ride the waves of ever love  
Let them throw you on the beach  
Gather real experience  
While it's still in your reach  
Faster, faster  
Faster than the speed of life  
Faster, faster  
Faster than the speed of life  
Summer nights of secret fun  
Moving farther out each day  
Like a shooting star you're flying  
Burning up what's in your way  
Faster, faster  
Faster than the speed of life  
Faster, faster  
Faster than the speed of life  
Screaming through the walls of inhibition  
Past the stream, you're breaking free  
There you stand, attained and in confusion  
Spread your arms and come to me  
Faster, faster  
Faster than the speed of life  
Faster, faster  
Faster than the speed of life  
Faster, faster, faster  
Faster, faster, faster  
Faster than the speed of life  
Faster, faster, faster  
Faster than the speed of life
