

Let Go (feat. Maya Tuttle)

[This Wild Life](#)

I think I'm done, done needing your love
You wouldn't even recognize me anymore
I'm burning bridges faster than ever before
I think I'll sink deep into me
You wouldn't even recognize me anymore
I'm burning even faster I'm learning when to let go I think I'm done, done feeling this numb
I'm seeing you in color for the first time
I've never felt better leaving you behind
I won't stay here, here cause you don't care
I'm learning lessons that I never could before
I'm burning even faster
Wondering if you're wandering
Do you regret almost everything?
I'll try to breathe easier
I hope this gets easier
All alone searching in the cold
Holding on to a shred of hope
I'll try to breathe easy now
I hope you find peace somehow
