

Constellations (feat. Lily Juniper)

Frederic Robinson

Turning to stone
While I still can't know
Change what I see
All that I believed

We have got reputations to upkeep
And we have got constellations telling us who to be
Just look at what we have become already
Despite we follow, follow, follow

All we keep and all that we know *2
Constellation that we follow*2

Melt to my hopes
Until I can't cope
Fire with dreams
On and on of me
