Keep On Rotting in the Free World

Carcass

(Music: Walker)
(Lyrics: Walker)
The threads of global fabric are untied
The role of the western free world is in decline
Still free to consume, free to breathe
Free to exist, free to dream, your life of dreams
Keep on rotting, keep on hoping, keep on dreaming
One day maybe, keep on rotting, keep on hoping
Whilst in the real world you...
Consumer or consumed, your life is cheap
Economic salvation in sweatshops returned from the east
Despair the only quality of strife
A reason for existence if you can afford the price,
If your price is right
Keep on rotting, keep on hoping, keep on dreaming
One day maybe, keep on rotting, keep on hoping
Whilst in the real world you...
Keep on rotting, keep on hoping, keep on dreaming
One day maybe, keep on rotting, keep on hoping
Whilst in the real world you...
(leads)
Keep on rotting, keep on hoping, keep on dreaming
One day maybe, keep on rotting, keep on hoping
Whilst in the real world you...
Keep on rotting, keep on hoping, keep on dreaming
One day maybe, keep on rotting, keep on hoping
Whilst in the real world you...
Keep on rotting, keep on hoping, keep on dreaming
One day maybe, keep on rotting, keep on hoping
Whilst in the real world you...
Keep on rotting, keep on hoping, keep on dreaming
Keep on rotting, keep on hoping
Whilst in the real world you...
..Rot!!!!!
